

# LIVING WATER

## FILTERS

## Tips For Using Living Water Filters

- 1) Soak filter (30sec) before use
- 2) Backwash filter by blowing through it after every use
- 3) Let filter dry completely if storing for extended periods of time
- 4) Backwash with clean water after use if applicable
- 5) Prefiltration will extend life of filter
- 6) Sipping works better than sucking

## Problems & Solutions

- 1) I Can't Get Water Through My Filter
  - Filter service life exceeded, time for new one
  - Filter is plugged due to water quality, dirty water
  - Filter is dry/new, let filter soak before use
